Madison Park

Madison Park was originally inhabited by the Duwamish Tribe. The tribe called the area, in English, "where one chops" because hunting, fishing and the forest around here involved chopping.

In the 1860's Judge John McGilvra developed this area. He acquired 420 acres at $5.00 an acre. It was school land and the sale help finance the University of Washington. McGilvra cut a road through (Madison St.) and set aside 24 acres to be used as a park, hence Madison Park.
